

## Activity—Observation and Description

Using the steps to Observing & Describing Behavior, as discussed in Class #2, identify and describe at least one of your child’s behaviors each day for the next seven days. Record the behavior you observed and describe it in the boxes below.

| Date | Appropriate Behavior | Inappropriate Behavior |
|------|----------------------|------------------------|
|      |                      |                        |
|      |                      |                        |
|      |                      |                        |
|      |                      |                        |
|      |                      |                        |
|      |                      |                        |
|      |                      |                        |
