

Preventive Teaching is teaching your child what he or she will need to know for a future situation and practicing it in advance.

When to use Preventive Teaching:

- When your child needs to learn something new
- When your child has behaved inappropriately in the past
- Always at a neutral time

Exercise #7.1

Think of areas in which your child needs to learn something new. List these in the following spaces:

1. _____

2. _____

3. _____
